Proficient Auto Logistics Announces Pricing of \$75 Million Convertible Bond Offering

August 11, 2026

JACKSONVILLE, Fla., Aug. 11, 2026 (GLOBE NEWSWIRE) -- Proficient Auto Logistics, Inc. (NASDAQ: PAL) (the "Company" or "Proficient"), a leading provider of auto transportation and logistics services, today announced the pricing of its previously announced offering of \$75.0 million aggregate principal amount of convertible senior notes due 2033 (the "notes") in a private offering (the "offering") to persons reasonably believed to be "qualified institutional buyers" in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933, as amended (the "Securities Act"). The issuance and sale of the notes are expected to settle on August 13, 2026, subject to customary closing conditions.

The notes will be senior, unsecured obligations of Proficient and will accrue interest at a rate of 5.50% per annum, payable semi-annually in arrears on February 15 and August 15 of each year, beginning on February 15, 2027. The notes will mature on August 15, 2033, unless earlier repurchased, redeemed or converted. Before May 15, 2033, noteholders will have the right to convert their notes only upon the occurrence of certain events. From and after May 15, 2033, noteholders may convert their notes at any time at their election until the close of business on the second scheduled trading day immediately before the maturity date. Proficient will settle conversions by paying or delivering, as applicable, cash, shares of Proficient common stock or a combination of cash and shares of Proficient common stock, at Proficient's election. The initial conversion ratio is 153.7870 common shares per \$1,000 principal amount of notes, which represents an initial conversion price of approximately \$6.50 per common share. The initial conversion price represents a premium of approximately 27.50% over the last reported sale price of \$5.10 per common share on August 11, 2026. The conversion rate and conversion price will be subject to adjustment upon the occurrence of certain events.

The notes will be redeemable, in whole or in part (subject to certain limitations), for cash at Proficient's option at any time, and from time to time, on or after August 15, 2030 and on or before the 60th scheduled trading day immediately before the maturity date, but only if the last reported sale price per common share exceeds 130% of the conversion price for a specified period of time and certain other conditions are satisfied. In addition, the notes will be redeemable, in whole and not in part, at Proficient's option if (i) certain changes in tax law occur; or (ii) the principal amount of the notes outstanding is less than 10% of the aggregate principal amount of notes initially issued, in each case, subject to certain conditions. The redemption price will be equal to the principal amount of the notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date.

If a "fundamental change" occurs, then, subject to a limited exception, Proficient will offer to repurchase the notes for cash. The repurchase price will be equal to the principal amount of the notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the applicable repurchase date.

Proficient estimates that the net proceeds from the offering will be approximately \$71.4 million, after deducting Proficient's estimated offering expenses. Proficient intends to use the net proceeds from the offering to refinance outstanding indebtedness and to pay the premiums with respect to the capped call transactions described below.

In connection with the pricing of the notes, Proficient entered into privately negotiated capped call transactions with certain financial institutions (the "option counterparties"). The capped call transactions are expected generally to reduce potential dilution to Proficient's common stock upon any conversion of the notes, and/or offset any potential cash payments Proficient is required to make in excess of the principal amount of such converted notes, as the case may be, with such reduction and/or offset subject to a cap based on the cap price. The cap price of the capped call transactions will initially be \$8.93 per share, and is subject to certain adjustments under the terms of the capped call transactions. Unless terminated early or extended, the capped call transactions are expected to expire over a period of trading days beginning on May 18, 2033.

Proficient has been advised that, in connection with establishing its initial hedges of the capped call transactions, the option counterparties or their respective affiliates expect to purchase shares of Proficient common stock and/or enter into various derivative transactions with respect to Proficient's common stock concurrently with, or shortly after, the pricing of the notes. This activity could increase (or reduce the size of any decrease in) the market price of Proficient's common stock or the notes at that time.

In addition, the option counterparties and/or their respective affiliates may modify their hedge positions by selling or purchasing

Proficient's common stock or other securities of Proficient in secondary market transactions and/or entering into or unwinding various derivatives with respect to Proficient's common stock following the pricing of the notes and prior to the maturity of the notes (and are likely to do so (x) on each exercise date for the capped call transactions, which are expected to occur on each trading day during the 60 trading day period beginning on May 18, 2033 and (y) following any early conversion of the notes, any repurchase of the notes by Proficient on any fundamental change repurchase date, any redemption date or may do so on any other date on which the notes are repurchased by Proficient). This activity could also cause or avoid a decrease or increase in the market price of Proficient's common stock or the notes, which could affect the ability of noteholders to convert the notes and, to the extent the activity occurs following conversion or during any observation period related to a conversion of the notes, it could affect the number of shares and/or value of the consideration that noteholders will receive upon conversion of the notes.

The notes and the common stock issuable upon conversion of the notes, if any, have not been and will not be registered under the Securities Act, or any state securities laws, and unless so registered, may not be offered or sold in the United States except pursuant to an applicable exemption from such registration requirements.

This announcement is neither an offer to sell nor a solicitation of an offer to buy any of the notes or any shares of common stock potentially issuable upon conversion of the notes and shall not constitute an offer, solicitation or sale in any jurisdiction in which such offer, solicitation or sale is unlawful.
